REDESIGNED I-4 INTERCHANGE IMPROVEMENTS AT STATE ROAD 434

Once the I-4 Ultimate construction is complete, the redesigned State Road (S.R.) 434 interchange will accommodate a greater volume of motorists.

1

Relocating the westbound I-4 exit ramp to S.R. 434. The new ramp will have an extra lane.

2

Separating the westbound I-4 ramp from westbound S.R. 434 to a new loop ramp to allow for greater capacity. The new loop ramp also will have an auxiliary lane on I-4 for merging.

3

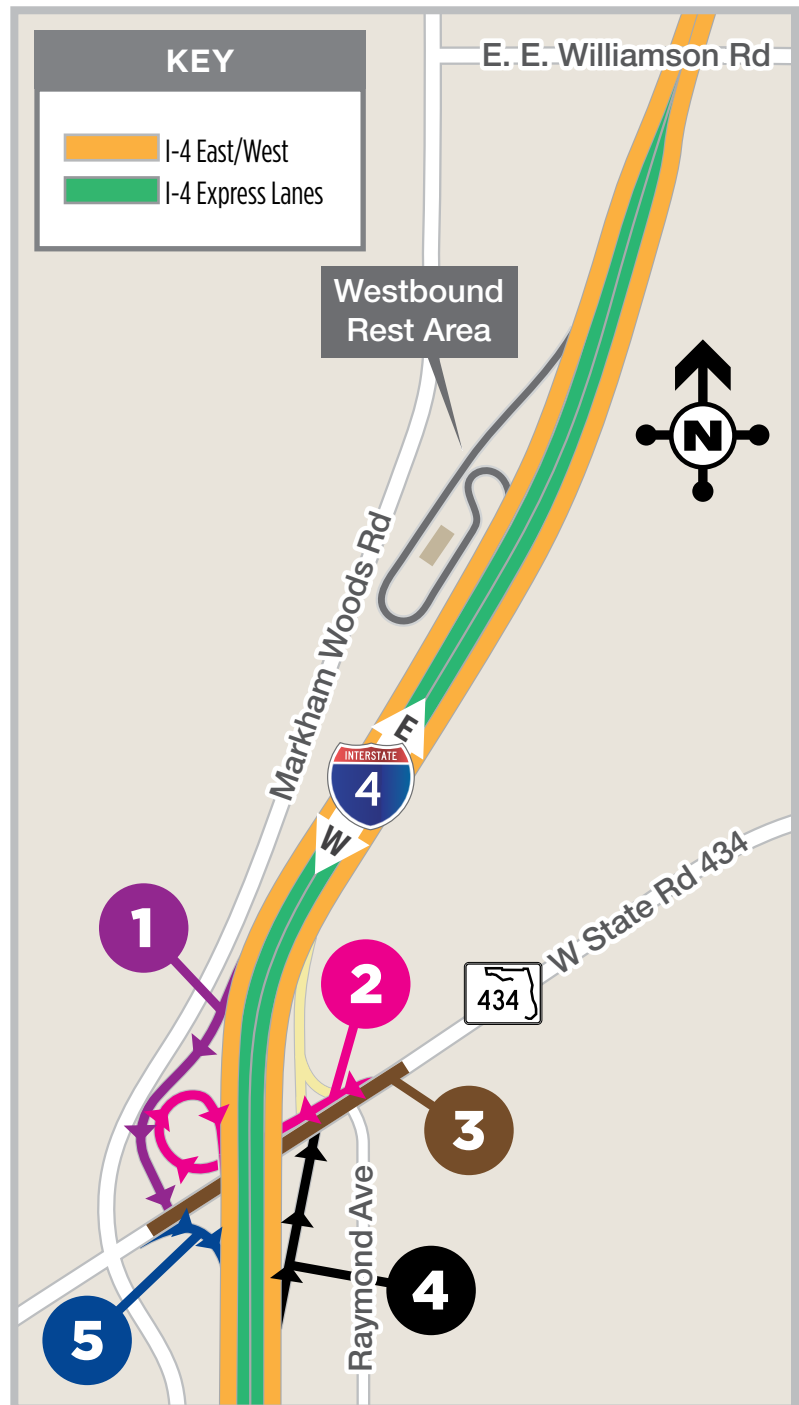

Adding additional capacity on S.R. 434 underneath I-4

4

Adding a right turn lane from the eastbound I-4 exit ramp to S.R. 434

5

Realigning and lengthening the westbound I-4 entrance ramp from eastbound S.R. 434
