RE: Noise Barrier Survey
Proposed Eatonville Noise Barrier
Financial Project ID: 432193-1-52-01
I-4 Ultimate Project
Orange County, Florida

Dear Property Owner or Resident:

Voting for a proposed noise barrier in the vicinity of the residential community located east of I-4 and north of East Kennedy Boulevard occurred in January 2015. FDOT requested votes from the benefited receptors at the proposed barrier location. Based on the ballots received, the noise barrier was supported by the majority of property owners and residents that cast a vote. Ninety-two (92) percent of the people who responded to the survey supported the new noise barrier.

The approved noise barrier is proposed to be installed as construction is completed. The noise barrier will be shoulder mounted and permanently located within the existing FDOT right of way. The height and length of the noise barrier are subject to change during final design. The current design includes a combination of an 8- and 14-foot noise barrier that extends approximately 3,550 feet along the outside shoulder of the I-4 eastbound lanes.

If you have any questions, please contact David Parks, Public Information Officer at 407-670-2358 or by email at davidparks@i4ultimate.com.

Sincerely,

Loreen Bobo, P.E.
