Second major traffic shift planned for westbound I-4 in Orlando

ORLANDO — Work on the second major traffic shift for westbound Interstate 4 (I-4) is planned overnight on Sunday, October 11, near the Formosa Avenue overpass. The long-term traffic pattern will relocate the westbound lanes to newly constructed temporary lanes, west of the existing travel lanes.

The traffic shift is approximately one-third of a mile long. Weather permitting, the new traffic pattern will be open to drivers at 5 a.m. on Monday, October 12.

Motorists should be aware that modifications or extensions to this schedule may become necessary due to weather delays or other unforeseen conditions. Motorists are advised to maintain a safe speed when driving through the work zone.

For more information, including an up-to-date list of lane and ramp closures, visit I4Ultimate.com. Motorists are encouraged to sign up for project newsletters and route-specific alerts through the website to help make informed decisions about when and where to travel.

The I-4 Ultimate project is rebuilding 21 miles of Interstate 4 (I-4) from west of Kirkman Road in Orange County to east of State Road 434 in Seminole County, adding two new dynamic tolled Express Lanes in each direction, replacing more than 140 bridges, reconfiguring 15 major interchanges and reconstructing the entire roadway.
