EB and WB I-4 rolling roadblocks scheduled for Sept. 28–29

ORLANDO — Rolling roadblocks on eastbound and westbound Interstate 4 (I-4) are scheduled between 12 a.m. and 5 a.m. on September 28–29.

Rolling roadblocks on westbound I-4 are scheduled in the morning hours of September 28, between 12 a.m. and 5 a.m. Rolling roadblocks on eastbound I-4 are scheduled to occur the morning of September 29 between 12 a.m. and 5 a.m. The rolling roadblocks will create a 30-minute window for crews to remove an out-of-service pedestrian bridge extending over I-4, near the Kaley Avenue interchange. Multiple rolling roadblocks are scheduled to occur each night.

Eastbound I-4 entrance ramps between Kirkman Road (State Road 435) and just beyond Kaley Avenue and westbound I-4 entrance ramps between Lee Road (State Road 423) and Gore Street will be temporarily blocked. As the rolling roadblock passes each interchange, law enforcement officers will reopen its entrance ramp. In total, nine westbound I-4 entrance ramps and nine eastbound I-4 entrance ramps and will be temporarily closed during the rolling roadblocks.

- View or download an online map of the temporary westbound I-4 on-ramp closures at: <http://fdot.tips/2yrkwiz>.
- View or download an online map of the temporary eastbound I-4 on-ramp closures at: <http://fdot.tips/2xDWymS>.

Modifications or extensions to this schedule may become necessary due to weather delays or other unforeseen conditions. Motorists are advised to maintain a safe speed when driving through the work zone.

The I-4 Ultimate project is rebuilding 21 miles of Interstate 4 (I-4) from west of Kirkman Road in Orange County to east of State Road 434 in Seminole County, adding two new dynamic tolled Express Lanes in each direction, replacing more than 140 bridges, reconfiguring 15 major interchanges and reconstructing the entire roadway.
