EB I-4 TRAVEL LANES AND INTERCHANGE RAMPS BETWEEN JOHN YOUNG PKWY AND DOWNTOWN ORLANDO SHIFTING TO TEMPORARY LOCATION AS SOON AS JUNE 1

Approximately 2 miles of eastbound Interstate 4 (I-4) travel lanes are temporarily shifting as soon as the morning of June 1. The shift creates a new eastbound I-4 temporary ramp system separated from and adjacent to the eastbound I-4 mainline through the Orange Blossom Trail (US 17-92/441), Michigan Street, and Kaley Avenue interchanges. Eastbound I-4 motorists exiting to Orange Blossom Trail and Kaley Avenue must now exit just beyond John Young Parkway interchange. The shift is necessary to continue constructing the permanent eastbound I-4 lanes.

See below for detailed information regarding each new movement. Visit i4ultimate.com/ebi4shift for additional resources.

- EB I-4 motorists traveling beyond Orange Blossom Trail, Michigan Street and Kaley Avenue will use new elevated lanes
 - EB I-4 motorists exiting eastbound I-4 to Orange Blossom Trail or Kaley Avenue must do so just after the John Young Parkway interchange
 - EB I-4 entrance ramp from Orange Blossom Trail joins with ramp system
 - EB I-4 entrance ramp from Michigan Street reopens after long-term closure. This ramp joins with the ramp system
 - All motorists on the ramp system must choose to enter EB I-4 travel lanes or exit to Kaley Avenue
 - EB I-4 entrance ramp from Kaley Avenue closing long-term
- Note: Movements 3, 4, and 5 will not take place until 5 a.m. the morning of June 3. Please see reverse for info on closures and detours.**
