## **REMINDER: Westbound I-4 Traffic Shift to occur this Weekend**

*Work to Begin Saturday Night and Continue Sunday Night*

---

**ORLANDO** — Overcoming weather delays, the I-4 Ultimate project team is prepared for its first major traffic shift on Interstate 4 (I-4).

Originally scheduled last week, the half-mile westbound I-4 traffic shift along Lake Ivanhoe was pushed back a week. The long-term traffic shift is relocating the westbound lanes to new temporary lanes between the existing I-4 westbound mainline lanes and the collector distributor road that services the westbound Ivanhoe Boulevard and westbound Colonial Drive entrance and exit ramps.

Due to the complexity of the traffic shift operation, work will occur during the course of two nights. The traffic shift is expected to begin overnight on Saturday, October 3, and be complete overnight Sunday, October 4. The new traffic pattern will be open to drivers Monday morning.

Further modifications or extensions to this schedule may become necessary due to weather delays or other unforeseen conditions. Motorists are advised to maintain a safe speed when driving through the work zone.

For more information, including an up-to-date list of lane and ramp closures, visit [I4Ultimate.com](http://I4Ultimate.com). Motorists are encouraged to sign up for project newsletters and route-specific alerts through the website to help make informed decisions about when and where to travel.

The I-4 Ultimate project is rebuilding 21 miles of Interstate 4 (I-4) from west of Kirkman Road in Orange County to east of State Road 434 in Seminole County, adding two new dynamic tolled Express Lanes in each direction, replacing more than 140 bridges, reconfiguring 15 major interchanges and reconstructing the entire roadway.

**Celebrating 100 Years of Innovation, Mobility and Economic Development**
