## Eastbound I-4 Exit Ramp to Princeton Street Shifting Nearly 2 Miles Sooner on Morning of September 22

**Orlando** — Motorists exiting to Princeton Street from eastbound Interstate 4 (I-4) will exit at a new location just 2 miles earlier as soon as September 22.

The temporary exit ramp (Exit 85) will take motorists over the new permanent eastbound I-4 bridges over Lake Ivanhoe.

Motorists entering eastbound I-4 from Colonial Drive (State Road 50)/Garland Avenue will merge with traffic exiting to Princeton Street, follow the roadway and then enter eastbound I-4 just beyond Lake Ivanhoe.

The new temporary configuration will feel familiar to motorists who use eastbound I-4 interchanges at Princeton Street, Par Street and Fairbanks Avenue, as it functions similarly to the combined eastbound I-4 exits to Par Street and Fairbanks Avenue and eastbound I-4 entrance ramp from Princeton Street.

View or download a handout that illustrates this upcoming ramp shift of the eastbound I-4 exit to Princeton Street at <https://fdot.tips/ebi4exit85>. Also visit [i4ultimate.com/EBI4](http://i4ultimate.com/EBI4) for additional resources, including aerial images, handouts and social media content.

This temporary configuration is necessary to continue constructing the permanent eastbound I-4 lanes adjacent to the roadway.

Modifications or extensions to this schedule may become necessary due to weather delays or other unforeseen conditions. Motorists are advised to maintain a safe speed when driving through the work zone.
