Eastbound I-4 Exit Ramps Changing for Par Street and Fairbanks Avenue

Orlando — As soon as the morning of November 20, crews will shift the eastbound I-4 exit to Par Street (Exit 86) and Fairbanks Avenue (Exit 87) back nearly 1.5 miles to combine with the exit ramp to Princeton Street (Exit 85).

This shift also will open the permanent eastbound I-4 entrance ramp from Ivanhoe Boulevard, which will join with this new road. In addition to changing how some motorists exit eastbound I-4, it may also slightly alter how they enter eastbound I-4.

Motorists seeking to enter eastbound I-4 from Garland Avenue/Colonial Drive (State Road 50), Ivanhoe Boulevard and Princeton Street will follow signage and use this roadway to travel to the existing eastbound I-4 entrance ramp just beyond Princeton Street.

Download or view an online handout that illustrates these eastbound I-4 ramp changes at: fdot.tips/par-fairbanks

Multiple roadway and ramp shifts along this stretch within the last year have allowed crews to keep traffic moving while also demolishing old ramps, completing bridge work and paving the roadways.

Modifications or extensions to this schedule may become necessary due to weather delays or other unforeseen conditions. Motorists are advised to maintain a safe speed when driving through the work zone.
