Three Lanes Closing on EB I-4 From Rio Grande Ave. to Michigan St. Starting Overnight Aug. 27

ORLANDO, Fla. – The Florida Department of Transportation (FDOT) will temporarily close the three leftmost lanes of traffic on eastbound Interstate 4 (I-4) between Rio Grande Avenue and Michigan Street.

The closures will occur continuously beginning as early as 9 p.m. Friday, August 27, and conclude by 9 p.m. Saturday, August 28.

The eastbound I-4 entrance ramp from Orange Blossom Trail (U.S. 441/17-92) and the eastbound I-4 exit ramp to Kaley Avenue will also close from 10 p.m. August 27 through 9 p.m. August 28 to accommodate the lane closures.

Eastbound I-4 motorists exiting to Kaley Avenue will instead use Exit 80B to northbound Orange Blossom Trail and continue to Kaley Avenue. Northbound Orange Blossom Trail motorists seeking to enter eastbound I-4 will instead enter from Michigan Street.

The closures are necessary to safely conduct bridge work.

Please view or download this [handout](#) for more information about the closure and detours.

Schedules are subject to change due to weather or other unforeseen circumstances. All motorists are urged to avoid distractions, follow posted signage and drive safely.

Motorists are encouraged to follow [@I4Ultimate](#) on Twitter or visit I4Ultimate.com for updates.

Media inquiries should be directed to the FDOT District Five Communications Office at FDOT-D5Comm@dot.state.fl.us or by phone at 386-943-5593.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
